Big Sky Carbon Sequestration
Annual Meeting
September 23-24, 2009

Thanks for inviting me to share a few words about Montana's energy future. We're blessed with abundant resources here in Big Sky Country. Thanks to folks like you -- and events like this -- America's energy future will be strong and sustainable.

I have closely followed the progress of the Big Sky Carbon Sequestration Partnership. It's a project that's paving the way to secure America's energy future. Working together, we can -- and we will -- find ways to develop all of our resources smartly.

Although I'm unable to attend this conference, I've asked my staff to take part -- and take notes. I look forward to hearing all about it. And as always, I look forward to hearing from you. Don't hesitate to call my office with any concerns or ideas for the future.

Thanks for taking time to organize and attend this conference. Good luck. And stay in touch.

Respectfully,

Jon Tester
United States Senator
